Frontend: React.js, Next.js, Server-Side Rendering (SSR), Tailwind CSS, HTML5, CSS3, Responsive Design, UI/UX Design, shadcn/ui, Framer Motion, GSAP, Anime.js, Three.js

Backend: Node.js, Express.js, Prisma ORM, RESTful APIs, API Integration

Databases: PostgreSQL, MongoDB, Supabase, Firebase, Firestore

AI & Automation: OpenAI API Integration, n8n Workflow Automation

CMS: WordPress

Tools: Git, GitHub, Vercel, Netlify

Practices: Agile, SEO, Performance Optimization, Accessibility, Cross-Browser Compatibility, Scalable Web Applications, Version Control, Web Security Fundamentals

Languages Spoken: English, Urdu, Punjabi

PROFESSIONAL EXPERIENCE

Founder & Lead Developer — AlphaGeeks

Self-Employed | Jan 2025 - Present (~18 months) | Lahore, Pakistan (Hybrid/Remote)

- Founded and lead AlphaGeeks, delivering production websites using Next.js, React, Tailwind CSS, and modern JavaScript while managing client relationships end-to-end.
- Successfully delivered three production-ready client projects to date, owning technical delivery and client relationships from discovery through launch.
- Modernized a freight/logistics client's online presence using Tailwind CSS, JavaScript, and Three.js, designing a dispatch-team-specific quote-request workflow to streamline service inquiries.
- Led client engagements from discovery call through launch — scoping requirements, mapping site information architecture, and delivering handoff documentation — keeping builds on schedule and maintainable after handover.
- Maintained a consistent ~24-hour client response time as a standing service commitment, supporting client trust and repeat engagement.
- Designing and developing AgencyOS, an internal CRM and workflow-automation platform, using Next.js, Prisma ORM, Supabase, and the OpenAI API to consolidate the agency's own operations onto one system.

PROJECTS

AgencyOS — AI-Powered Agency Operating System *(Currently in Active Development)* Next.js, React, Prisma ORM, PostgreSQL, Supabase, OpenAI API, n8n - Designing and developing an AI-powered operating system that centralizes CRM, project management, finance, documents, and client communication into a single platform for digital agencies. - Building a unified architecture using Prisma ORM and PostgreSQL via Supabase with a scalable, modular codebase. - Integrating OpenAI APIs to automate proposal generation, email drafting, workflow summaries, and business operations. - Developing self-hosted automation pipelines with n8n to reduce repetitive administrative work. - Core CRM, authentication, project management, AI modules, and workflow automation are actively under development with continuous UI and feature improvements before production release.

American ASK4 Logistics — Company Website Tailwind CSS, JavaScript, Three.js - Designed and developed a high-performance logistics website, modernizing the company's online presence with a mobile-first, responsive build. - Designed a quote-request flow tailored to dispatch teams, plus clear service breakdowns, with a focus on speed, SEO, and scalability. - Scored 100 Performance, 100 Accessibility, 100 SEO, and 96 Best Practices on Google PageSpeed Insights (Mobile & Desktop). Live in production.

Personal Portfolio Website for a Creative Professional Next.js, Tailwind CSS, Framer Motion - Designed and developed a personal portfolio for a client, using a clean case-study layout so the client's own work stays the visual focus rather than the template. - Scored 100 Performance, 100 Accessibility, and 96 Best Practices on Google PageSpeed Insights (Mobile).

AlphaGeeks Website Next.js 15, Tailwind CSS, Framer Motion, GSAP, Anime.js - Designed, developed, and deployed the agency's own site to win client trust rather than just attention — a scroll-driven brand story, services grid, and conversion-focused contact flow. - Scored 100 Performance, 96 Accessibility, 100 Best Practices, and 92 SEO on Google PageSpeed Insights (Mobile & Desktop).

TahaBuilds Portfolio Next.js, Framer Motion, Anime.js - Personal portfolio showcasing selected projects, technical case studies, and development expertise; optimized for SEO and Core Web Vitals, deployed and maintained on Vercel.

ACHIEVEMENTS

- Founded and lead AlphaGeeks, delivering custom software solutions for startups and small businesses.
- Successfully delivered three production-ready client projects to date, owning each end-to-end from discovery to launch.
- Currently designing and developing AgencyOS, an AI-powered CRM and automation platform.
- Google Foundations of Cybersecurity Certification.

EDUCATION

University of Central Punjab (UCP) — Lahore, Pakistan Associate Degree Program (ADP) in Computer Science | Oct 2023 – Aug 2025 CGPA: 3.52/4.00
Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Web Programming, Web Application Development, Operating Systems, Mobile Application Development

University of Education (UE), Division of Science and Technology Post-ADP (BS Computer Science) — In Progress

Punjab Group of Colleges ICS, Computer Science | Oct 2021 – May 2022 | Grade: A

CERTIFICATIONS

- Foundations of Cybersecurity** — Google | Issued Aug 2025 | Credential ID: 3ANF4NMHGH
